1. After considerable discussion with Matt Baird about the desirability of obtaining [REDACTED] from DD/P to head our Management Training for about a year and a half, I gave Matt the green light to go ahead with this if, in his judgment, he felt that [REDACTED] was the best man available for the job.

2. Emmett Echols advised me that DD/I had requested a Supergrade Board Meeting early in January and he is to notify the other Deputy Directors and check with General Cabell to make the necessary arrangements.

3. I learned that Mr. Soresi who has been trying to see me for some time actually saw Bob Amory this afternoon. Bob told me that his visit had to do with affairs in Cuba and that he had turned the whole matter over [REDACTED] Soresi is, I believe, a newspaper man and I probably should alert Stan Grogan that he is around the Agency.
